From 14th April to 18th April, Paul and Mia had a breathtaking safari experience in the vast plains of Tanzania.

Before starting their safari they had a relaxing day at Gran Melia Hotel one of the luxurious hotel here in Arusha.

The next day they take a 2hrs flight to the most important ecosystem in the world the unparalleled Serengeti National Park . Mia she was so enthusiastic that she considered it probably the most authentic place she has ever seen. Needless to say how abundant wildlife is in this nature gift and not even the Giraffe, Cheetah, Lion or Leopard resist to show up. Elephants, her favorite animal, came to say hello during breakfast. They stayed two nights at one of the luxurious lodge in Serengeti, Four Season Safari Lodge and on 16th they had an amazing Balloon Safari.

on 17th April 2023 they descend to the 8th wonder of the world, the Ngorongoro crater and it didn't disappoint as they had a wonderful game viewing spot wildlife. Soon after ascend from the crater floor they drive back to the hotel ,Gran Melia for relaxation, dinner and overnight

As the last day arrive and it was time to say goodbye and it was so hard to say Goodbye to their Guide (Godwin), both Paul and Mia confess how they were already missing the wild vibes .

I want this Safari
